Contact: Nicolas Floury

Phone: +31715653581

Fax: +31715654999

E-Mail: Nicolas.Floury@esa.int

Research Topics:

Satellite propagation modelling and measurement campaigns

Propagation effects on Fixed Satellite Communications

Propagation effects on Mobile Satellite Communications

(Land, Aeronautical, Maritime)

Propagation effects on Satellite Navigation Systems

Tropospheric propagation

Trans-ionospheric propagation

Standardisation activities in ITU-R Study Group 3

Propagation through natural media as support

to satellite remote sensing
