

European Association on Antennas and Propagation

Technische Universität Braunschweig
Institut für Nachrichtentechnik

Schleinitzstr. 22
38106 Braunschweig, Germany

Web page:

<http://www.ifn.ing.tu-bs.de/en/ifn/ms>

Contact: Prof. Dr.-Ing. Thomas Kürner

Phone: +49(0)531 391-2416

E-Mail: t.kuerner@tu-bs.de

Research Topics:

Propagation and channel models for:

- cellular networks (outdoor, indoor)
- millimeter wave and THz communications
- vehicle-to-X communications
- navigation

European Association on Antennas and Propagation

RWTH Aachen University

Institut für Hochfrequenztechnik

Melatener Str. 25

52074 Aachen, Germany

Web page:

<http://www.ihf.rwth-aachen.de>

Contact: Dipl.-Ing. Jörg Pamp

Phone: +49(0)241 80-27935

E-Mail: pamp@ihf.rwth-aachen.de

Research Topics:

Propagation and channel models for:

- wireless networks (outdoor, indoor)
- navigation

European Association on Antennas and Propagation

Karlsruhe Institute of Technology
Institut für Hochfrequenztechnik und

Kaiserstr. 12
76137 Karlsruhe, Germany

Web page:

<http://www.ihe.kit.edu>

Contact: Prof. Dr.-Ing. Thomas Zwick

Phone: +49(0)721-608-42522

E-Mail: thomas.zwick@kit.edu

Research Topics:

Propagation and channel models for:

- cellular networks (outdoor, indoor)
- car-to-car and car-to-X communications
- automotive radar

European Association on Antennas and Propagation

Technische Universität Ilmenau

Helmholtzplatz 2, P.O. Box 100565
D-98684 Ilmenau, Germany

**TECHNISCHE UNIVERSITÄT
ILMENAU**

Web page:

<http://www.tu-ilmenau.de>

Contact: Dr. Reiner Thomae

Phone: +49 3677 69-2622

E-Mail: Reiner.Thomae@tu-ilmenau.de

Research Topics:

Channel sounding and channel modeling for cellular and ad-hoc networks

Car-to-X communication

mm-Wave communication

OTA-performance evaluation

Localization and tracking

UWB- and multipath exploiting Radar

European Association on Antennas and Propagation

Technische Universität München
Lehrstuhl für Hochfrequenztechnik

Arcisstr. 21
80333 München, Germany

Web page:

<http://www.hft.ei.tum.de>

Contact: Prof. Dr.-Ing. Thomas Eibert

Phone: +49(0)89 289-28391

E-Mail: eibert@tum.de

Research Topics:

Propagation and channel models for:

- mobile communications
- ultrawideband systems
- Radar
