# SPONSORSHIP PROPOSAL

**CONTRIBUTE TO  
SHAPE  
THE FUTURE  
OF EDUCATION IN  
ANTENNAS AND  
PROPAGATION**

ESoA is part of the European Association on Antennas and Propagation (EurAAP), which is an international not-for-profit Association with a scientific, educational and technical purpose, registered in Brussels, Belgium, under European law.

## About **ESoA**

**The European School of Antennas and Propagation (ESoA) is a self-consistent model of post graduate school** distributed in the several research center in Europe.

ESoA creates a large spread of knowledge among students, early stage scientists and researchers all over Europe.

ESoA is becoming not only important in the specific field of Antennas and Propagation, but it is gradually evolving to become the most important and biggest school in the world of Electromagnetic Engineering.

## A way to **Excellence**

ESoA was founded in 2004 and from 2008 ESoA is part of EurAAP.

The ESoA **courses are distributed in the most accredited European research centers** on antennas and propagation in Europe.

**ESoA constitute a worldwide unique system of excellence** in high-level advanced education. A similar system of excellence is neither known in Europe, nor worldwide.

## ESoA Board Governance

The ESoA board is composed by 43 **members**, who are also coordinators of courses.

Within the board **Stefano Maci** is being appointed as a **ESoA Chair** and **Cristina Yepes** as **ESoA treasurer and secretary**.

**Stefano Maci**  
EsoA Chair

**Cristina Yepes**  
EsoA Treasurer and  
Secretary

The **ESoA Board meets between two and three times per year** and gets continuously stimulus to **updating the courses and introducing new ones**.

The coordinators of the courses improve the content of each edition for maintain each course at the state-of-the-art level. **Several new junior professors are included** in the structure when they reach the right maturity, and in doing so, the ESoA board members perform a **talent scouting action in conferences**. ESoA also constitutes a strong tool for improving the **dialogue between the universities and the industries**, giving thereby employment opportunities to students.

ESoA Worldwide

## High Level Advanced Education

The most attractive feature of ESoA is the fact that it is geographically distributed, giving the students a unique opportunity to attend courses in the most relevant Scientific Centers of Excellence, and to attend lectures from the best local and visiting instructors.

ESoA includes the best **100 teachers** in Europe, among which they are **70 IEEE Fellows**, and many other lecturers. ESoA is attended by an average of 400 students per year. The courses are continuously updated and each edition is never equal to the previous one.

## What **We Do**

The overall objectives of ESoA are pursued through a wide range of scientific activities including theoretical courses and practical laboratory sessions to share the most up-to-date knowledge in Antennas, Propagation and Measurement.

### *Reinforcing*

Reinforcing the European excellence in EM engineering with emphasis on antenna.

Creating an effective advanced formative offer at international level to complete individual PhD curricula.

### *Creating*

### *Increasing*

Increasing the ties in research and development between Universities and Industries on an European scale.

Facilitating the interchange of ideas among early-stage researchers and trainers as well as among young researchers thus increasing the future mobility and synergy.
